BIG-SCHOOL OPPORTUNITIES IN A SMALL-SCHOOL ENVIRONMENT

Fremont Christian School is a private, co-educational college preparatory school established in 1968 as an educational outreach of Harbor Light Church. FCS strives to provide every child with a safe place to grow, learn, and explore their faith. Though we wholeheartedly encourage students to explore Christianity, students of all faiths are welcome in our community.

At FCS, we desire for every student to see themselves and everyone around them as the *imago Dei*: unique individuals made in the image of God with a purpose. We value providing students with a wide variety of opportunities for growth through classroom experiences with dedicated teachers, participation in competitive sport teams, and access to an exceptional and robust visual and performing arts program. We believe that any amount of time your child spends with our school is a chance to learn and grow further into the person God has called them to be.

INSTRUCTIONAL PHILOSOPHY

FCS provides a growth-oriented, advanced college-preparatory curriculum that reflects a biblical worldview. Guided Language Acquisition Design (GLAD), a research-based model rich in advanced vocabulary, supports instruction across content areas, promotes metacognition, encourages gradual release of responsibility, and embodies 21st-century learning. The GLAD model emphasizes problem-solving, respecting others, and making wise decisions. Metacognitive learners are able to reflect on and analyze their own learning: *Does this make sense? How am I doing? What am I doing well? What can I do better?*

TECHNOLOGY INTEGRATION

We incorporate a broad range of platforms and web applications to help prepare students for life beyond FCS. Some of the platforms we integrate into our curriculum, including Canvas, Turnitin, NoRedInk, and Kami, are used at universities and workplaces across the nation.

ATHLETICS

FCHS competes in the Bay Counties League (BCL) in the Bay Area Conference (BAC) in the North Coast Section (NCS) of the California Interscholastic Federation (CIF). Our FCS Warriors hold 85 league championships and nine section championships. Our Boys' Varsity Baseball won the 2019 NCS Championship. High school students have opportunities to try out for teams including baseball, basketball, cross-country, soccer, girls' tennis, track and field, and volleyball.

VISUAL & PERFORMING ARTS

The Visual & Performing Arts Department produces award-winning choral, traditional band, jazz, and handbell ensembles, while student dramatists bring professional-grade musicals and classic plays to our stages. Choral and instrumental groups tour and perform at a variety of venues across the nation and internationally, such as Carnegie Hall and the Montreux Jazz Festival.

ACTIVITIES & CLUBS

Regular Activities: Dances, intramural competitions, Spirit Week, Worldwide Warrior Week, and more. All student life events are sponsored by the United Student Body (USB) council.

Club Options: At FCS, students are encouraged to start and join clubs, which meet under the supervision of an advisor. Finance, medical research, Quizbowl, Interact, Mandarin choir, and Badminton are some of the clubs students have organized this year.

JANUARY TERM

Between the first and second semesters, FCS offers a specialized two-week (J-Term) session that provides students the opportunity to explore new classes beyond the typical college-prep curriculum. Potential J-Term opportunities may include psychology, service-learning travel, programming, engineering, photography, culinary arts, native planting, and internships. J-Term includes the perennially popular high school retreat.

ACADEMIC & COLLEGE COUNSELING

FCS Academic & College Counseling provides a supportive environment in which students can identify their goals, reflect on their talents and passions, and make confident decisions about higher education. We provide them with the support they need to successfully navigate high school and college. FCS uses Naviance for college and career planning and engagement. All students and parents have access to this thorough and well-regarded resource.

- The 1–1 course planning and advising formally begin in 8th grade with a counselor to help students start to envision their post-secondary goals and create a strong academic record.
- Our small community allows our Academic and College Counseling Office to get to know each student personally and provide tailored guidance to each family.
- Our counselor offers financial aid navigation and supports students as they find and apply for scholarships, aid, and grants.
- Hands-on opportunities to explore through on-campus college fairs, college representative visits, local college trips, overnight college tours, and college application workshops. Our Annual Fall College Fair has a range of thirty to forty colleges represented, available to both our high school students and their parents.
- The Academic & College Counseling Office is located among the secondary classrooms, making it readily accessible. Students stop in with quick questions and easily schedule longer sit-down appointments. Parents are encouraged to schedule in-person or virtual meetings with their child's counselor as well. We implement software tools as an additional support for college and career exploration. Each student will have a personalized profile where they are able to engage career assessments, scholarship search resources, resume building tools, and college search information.

MAP GROWTH ASSESSMENTS

The Measure of Academic Progress (MAP) assessment is administered at the beginning of each academic year to determine what each student is ready to learn. The MAP assessments in reading, language, and mathematics provide teachers valuable data used to differentiate and meet the needs of all learners. The RIT score, a nationally normed data point, is compared to the grade-level mean (average) using data from millions of students. The results on the following graph show the percentage of students who scored above the 2020 normative data during our testing session in spring 2023. Students are tested again in the winter and spring to track their personal academic growth this year.

Percentage of Students who Scored Higher than the National Average by Grade Level

11th grade students have tested out of the Mathematics examination
